## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 3,481,324 to Talbot et al.

In reference to claim 4, Talbot discloses a patient levitation apparatus for a patient comprising:

a patient board having a patient side and a bottom 12; and

a plenum member 14 attached to the bottom of the board (col. 3 lines 19-22), wherein the plenum member is adapted to receive a flow of pressurized air and release the flow through a plurality of holes in the plenum member to provide a layer of air below the patient board supporting the patient (col. 2 lines 48-55).

Regarding claim 5, wherein the plenum member further includes an intake port 56 for receiving the flow of pressurized air.

Regarding claim 7, wherein the flow of pressurized air is delivered from a blower motor 18 through an air hose 60.

## Allowable Subject Matter

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
